With Thanksgiving and Christmas Holidays just around the corner, Wes Syverson, N6HJS/CA8CV, will speak to us about loneliness of missionaries and lay people serving overseas, vital communications, and mission work and experiences.

Wes, and XYL, Mary Ann, have spent the the past 12 years with Wycliffe Associates in South America; Wes in construction and maintenance, and Mary Ann in secretarial and book-keeping services. Wes headed up the Utilities Department, involving lay people providing water, electric, and telephone services to Wycliffe missionaries around the world!

Wes, grew up in Minnesota, son of a pastor, where he helped his father build churches. He has been in construction work for his entire life.

ELECTION - NOVEMBER - ELECTION
*** AT THE AUCTION ***

There was no formal meeting at the Club auction held on Oct. 16. Chris, KA6IMP, auctioneer, opened the auction at 7:50 pm. VKZ & JSV did a good job at keeping the records straight. No business was conducted due to the auction. Visitors were: former Club member, John Christopher, NG7D, & father, Joe; Walt Cieslak, KB6PIK; Larry Beilen, K6VDP; Neil Kaltman, K6SMF; William Bonnici, KB6RGA. (Txn, Jeannie, EZS.)

*** BOARD MEETING ***

The Nov. 7, 1987 Board Meeting convened after the Club Breakfast, at 9:10 am, at LeGrand Restaurant. Called to order by Club Pres., Jim, JSV, the following Board members were absent: ULU, MIL, & VKZ. JSV presented Treasurer, HHC, our current insurance bill in the amt. of $255! The slate of proposed officers for 1988 was presented by JSV and will be printed elsewhere in this 'RF'. Jane Watts volunteered to print Nov. 'RF'. Next, we discussed the need for a new CW net control for the Club's 15m net. JAV mentioned the need to replace HHC as chairman for the HAMCON Security Committee. And JSV also mentioned that there is a shortage of volunteers for the security group for HAMCON. YZG asked if the security people will be bonded. HHC will check the bonding question. VQL then volunteered his services for the HAMCON security group. Volunteers thus far are: HHC, VQL, IMP, YZG, EZP. If you can help, please volunteer your services at next meeting! HHC reported that the Club made $150+ on the auction, partially due to the auction donation of NGO! (Txn, Keil) The Christmas banquet was discussed. AF6C suggested New York, New York Restaurant on Chapman in Orange. EZP will check on N.Y., N.Y. on Chapman, and also, the Temple Gardens Chinese Restaurant in Garden Grove; the date of the Christmas Banquet to be announced later. A $5.00 limit was placed on the gift exchange. Lu, YZG, inquired about the ARRL Golden Jubilee contest. JSV responded with an outline of remarks from ARRL. Concerning Field Day, it was reported that we ranked 7th or 8th in the State.

Respectfully submitted, Jeanie Talcott, EZS, Secy.

27 things to help you survive an earthquake

Californians are constantly aware of the potential of an earthquake creating damage and creating dangerous conditions. So if we don't properly prepare, the next quake may cause greater personal damage than necessary. Each item listed below won't stop the next earthquake but it may help you survive in a better way.

4 Basics to do during an earthquake

1. Stay calm
2. Inside: Stand in a doorway, or crouch under a desk or table, away from windows or glass dividers.
3. Outside: Stand away from buildings, trees, telephone and electric lines.
4. On the road: Drive away from underpasses/overpasses, stop in safe area, stay in vehicle.

6 Basics to do after an earthquake

1. Check for injuries—provide first aid.
2. Check for safety—check for gas, water, sewage breaks; check for downed electric lines and shorts; turn off appropriate utilities; check for building damage and potential safety problems during after shocks such as cracks around chimney and foundation.
3. Clean up dangerous spills.
4. Wear shoes.
5. Turn on radio and listen for instructions from public safety agencies.
6. Don't use the telephone except for emergency use.

14 Survival Items to keep on hand

1. Portable radio with extra batteries
2. Flashlight with extra batteries
3. First Aid Kit—including specific medicines needed for members of your household
4. First Aid book
5. Fire extinguisher
6. Adjustable wrench for turning off gas and water
7. Smoke detector properly installed
8. Portable fire escape ladder for homes/apartments with multiple floors
9. Bottled water—sufficient for the number of members in your household
10. Yurika Foods entrees sufficient for a week for each member of your household. Note: Both water and food should be rotated into normal meals of household so as to keep freshness. Yurika Foods entrees have a normal shelf life of five years for maximum freshness.
11. Non-electric can opener
12. Portable stove such as butane or charcoal. Note: Use of such stoves should not take place until it is determined that there is no gas leak in the area. Charcoal should be burned only out of doors. Use of charcoal indoors will lead to carbon monoxide poisoning.
13. Matches
14. Telephone numbers of police, fire and doctor

3 Things you need to know

1. How to turn off gas, water and electricity
2. First Aid
3. Plan for reuniting your family

The best survival is a prepared survival
