"...PREZ SEZ...."

No official "...PREZ SEZ...." this month folks. Prez, Frank/WA6VKZ, is feeling a bit under the weather due to his being "rear ended" in a traffic accident over the weekend. Frank did want me to mention that Field Day is only about two months away, so all members of the club need to start getting ready for that event.

Vic, WA6RNA, is looking for volunteers to work the NINTH ANNUAL VETERANS ADMINISTRATION WHEEL CHAIR game on June 13 - 17. If you have the time and can lend Vic a hand, give him a call at (714) 895-5170. He can fill you in on the other details.

MINUTES MARCH GENERAL MEETING

The March General Meeting was called to order at 7:30 pm on the 17th of March 1989 by the President Frank, WA6VKZ. 29 members and guests were present. Board members John, WA6LAB and Ron, KB6EZP were absent. Kent Dixon, KC5ATK, Jim Logan, N6UAB, Dennis Sheppard, N6RUL, Lew Bright, G4BH4 and Clay Glenn, a new novice without callsign as yet, were visitors. Fried Heyn, WA6WZO gave a synopsis of League activities, also touching on 220 and the always controversial "no code" issue. The first tally of the audience garnered 15 votes in favor of no code and 12 against. "After Fried's presentation, the vote had changed to 18 in favor and 9 against. Fried then showed a super Laurel and Hardy silent flick concerning the hazards of antenna erection.

Old Business: Field Day and World Radio.
New Business: None.

Good of the Club: Pizza Bash Saturday Nite. Moved Club Breakfast to Denny's. ACP computer swap Sunday. Alex, W6RE, announced K4NAA (Navy communications unit) will be on the air April 1, 1989 from 1300-2100 SSB 7230, 14280, 21370 and 28350. DUES ARE DUE!!!. Meeting adjourned 9:03 PM.
Respectfully submitted Bob, KD6XO, Secretary.

HAMCON 1989 ANNOUNCED

Final plans have been made for HAMCON 1989. This years location will be the Los Angeles Airport Hilton Hotel. The dates are: August 25, 26, and 27. This year there will be both Saturday and Sunday Tech sessions, with the exhibits open both days. On Friday night there will be no host cocktails, possibly dancing to a Big Band Sound quartet, and even strolling magicians. The exhibits will also be open for a two hour preview. Our registration prices have even been held to the same as last year. So mark you calendar and make plans to come and enjoy yourselves at HAMCON 89.

From a flyer sent out by Gary Gabrick, KB6TWP, Registration Chairman, HAMCON.
AN ARRl STUDY COMMITTEE APPOINTED TO EXPLORE THE IMPLICATIONS OF A CODELESS CLASS OF AMATEUR RADIO LICENSE HAS SUBMITTED A REPORT RECOMMENDING THE CREATION OF SUCH A LICENSE AS AN ALTERNATIVE MEANS OF ENTRY INTO AMATEUR RADIO. THE ARRl EXECUTIVE COMMITTEE, WHICH MET ON APRIL 1, DID NOT TAKE A POSITION ON THE SUBSTANCE OF THE REPORT BUT AUTHORIZED ITS PUBLICATION IN THE MAY ISSUE OF QST AND REFERRED IT TO THE FULL BOARD OF DIRECTORS FOR CONSIDERATION.

THE STUDY COMMITTEE STRESSED THAT ITS PROPOSAL IF ADOPTED WOULD NOT CAUSE ANY LICENSEE TO LOSE ANY PRESENT PRIVILEGES. IT PROPOSES A NEW CLASS OF AMATEUR RADIO LICENSE WITH A WRITTEN EXAMINATION SOMEWHAT MORE COMPREHENSIVE THAT THE PRESENT TECHNICIAN EXAM BUT WITH NO REQUIREMENT FOR A MORSE CODE EXAM. HOLDERS WOULD BE GIVEN FULL PRIVILEGES NOW AVAILABLE TO TECHNICIANS ABOVE 30 MHZ, EXCEPT THAT 2 METER OPERATION WOULD BE LIMITED TO FREQUENCIES BETWEEN 144.9 AND 145.1 MHZ AND TO DIGITAL MODES ONLY. EXAMS WOULD BE GIVEN ONLY BY ACCREDITED VOLUNTEER EXAMINERS AND DISTINCTIVE CALL SIGNS WOULD BE ASSIGNED.

THE COMMITTEE REPORT DOES NOT REPRESENT LEAGUE POLICY AT THIS TIME. THE BOARD OF DIRECTORS IS THE POLICY MAKING BODY OF THE ORGANIZATION AND AS SUCH WILL DETERMINE WHETHER THE REPORT, WITH OR WITHOUT MODIFICATIONS, WILL BECOME LEAGUE POLICY. ARRl MEMBERS, OTHER LICENSED RADIO AMATEURS, AND OTHERS INTERESTED IN AMATEUR RADIO ARE INVITED TO REVIEW THE REPORT AND TO MAKE THEIR VIEWS KNOWN TO ARRl DIVISION DIRECTORS BEFORE THE NEXT BOARD MEETING, JULY 21 AND 22 AR Copied FROM W1AW BY RALPH, W7DB @ N7GLL

Preliminary Results of CQ's Survey on Code-Free Entry-Level License

We've now received something over 4400 responses. Since the survey was in the form of a post card requiring the participant to place a stamp on it, we have an obvious bias towards people who feel strongly about the issues. Given the initial rate of return and the slowdown as time goes by, we would expect a final number of returns to range between 4700 and 5000. However, the trends seem to be well established; the deviations of the daily tallies from the averages are minuscule. Overall:

For 59.5% Against 40.5%

Controlling for ARRl membership shows very little difference -- 57.6% for and 42.4% against. This may simply be an artifact of ARRl's blood and guts battle against no-code in 1983. No figures have been calculated on license class yet, but it would appear that a higher class license is associated with a more favorable disposition toward the code-free concept.

One thing is abundantly clear from these results—this is wo4 a repeat of 1983 when our mail (and everyone else's) ran approximately 20 to 1 against. Were this a political poll, the pundits would be predicting a landslide victory for a code-free entry-level license. (Please distribute this information as widely as possible.)

The Southern California DX PacketCluster System

The Southern California DX PacketCluster system is growing rapidly in both coverage and users. During the ARRL CW contest 32 users were connected. More than 250 DX stations were announced. If you are not hearing this many reports, it's time to join us. We expect 50 PacketCluster users will be reporting DX during the SSB contest.

The system presently incorporates 4 interconnected nodes operating on 144.46 MHz. Each node can serve up to 26 users simultaneously. A DX announcement reported into any one of the nodes is automatically distributed to all of the users connected to all of the other nodes.

**TNC PARAMETERS** — The following parameters are recommended for efficient channel utilization.

- **BEACON**: 0
- **CMSC**: OFF
- **CMSCDISCOFF**: OFF
- **DWAIT**: 16
- **DIGIEAT**: OFF
- **FRACK**: 3
- **HID**: OFF
- **MYCALL**: your call
- **MAXFRAME**: 1
- **PACLEN**: 80
- **RETRY**: 5
- **RESPTIME**: 8
- **TXDELAY**: 15 (50 if relay)
- **UNPROTO**: NONE

**CONNECTING** — To connect to the PacketCluster, enter the command CONNECT (call) for the node closest to your QTH. You will be greeted by a welcome message followed by an offer of help. To see the available commands, type HELP. To obtain additional help with specific commands, type HELP (command), e.g., HELP DX.

**USER COMMANDS** — When entering user commands, only the capitalized letters and slash marks need be entered. Wait for a request to be completed before entering another.

- **ANNOUNCE** (message) make general announcements to all
- **BYE** to leave PacketCluster
- **DX** (freq) (call) (messt) enter a DX announcement
  (e.g., DX 14025 SWOA listening up
  lets users know you are at your rig
  users know you are away from your rig
  e.g., 53.80 N 118.40 W
  see all nodes and users connected
  see last five DX reports
  see last ten, 15 meter reports
  see last ten, 20 meter, 5B reports
  calculates beam heading to (prefix)
  calculates MUF and LUF to (prefix)
  sunrise/sunset times for (prefix)
  see last five WWV solar reports
  send short message to other user
  (e.g., TALK W6PQS meet me on 146.52)

The nodes are designed with low antennas to provide coverage of specific areas and allow the frequencies to be reused by additional nodes. New users should connect with the closest node using a directional antenna and low power to avoid interfering with other more distant nodes and increase the system response speed. A list of connected users is available on screen and you may pass messages to anyone connected to any of the nodes.

BY KEN/W6HHC

HERE IS A SAMPLE OF THE TYPE OF REPORTS THAT YOU CAN GET FROM THIS EXCITING NEW PACKET SERVICE FOR DXers. ALSO, THIS NETWORK IS DIFFERENT FROM MANY OTHER BBS-OPERATIONS ON PACKET RADIO IN THAT MANY STATIONS CAN CONNECT AT THE SAME TIME TO THE SAME NODE!! (NOT JUST ONE CONNECT AT A TIME!!)

Hi! Welcome to the ORANGE COUNTY DX PacketCluster system.

Cluster info: 2 nodes, 11 local and 21 total users. Highwater mark - 21

NG7D tells ULU abt his DX sched between 2200-0200 hrs eves., & between 1500-1800 hrs AMs. on freqs of 28.3-28.4 on 10m. John also works New Caledonia in weekend contest. GDZ works SSB to Europe AMS on 28.7-28.8 MHz, & 10m FM at 29.6 MHz SSB. Will also have trouble getting the HT to work wid his packet TNC. YZG, & all OPs, report ULU's sigs better after he turns beam our way! Lu also tickles IXN's 'funny spot' wid 'dummy load dipole' ant. hoax rejected by ARRL! NG7D orders a new synthesizer voice program for his Commodore 64! 3/29 2m phone net - W6ZE/AF6C checks in JSV, GDZ, RE, ATK, IXN, YZG, & ULU. JSV appears to be the only OP who watched the Academy Awards! Jim also tells OPs about Bruce K., a new prospective ham, listening to us on his scanner! (Welcome, Bruce!) RE attends Easter services, & dines wid a couple he hasn't seen fer 60 yrs., plays interesting Westlink tapes, & will only watch the 'Oscar' awards to see hw far some of the gals 'climb out of their dressers'! Alex also brings WA6RVS home after 6 mo. stay in the hospital! ATK needs code practice...IXN & ATK discuss possibilities. YZG suggests W1AW sched. to Kent. AF6C tells ULU that YMH BBS will not be down fer long. YZG wonders where all the 'Oscar' people were 'kissing each other'?! de WB6IXN

*** AREA AMATEUR RADIO' IN THE '20s & '30s ***

At last choir practice, IXN got the name, Ed Heffner, W6CNK, an 80 yr. 'old-timer' in amateur radio from New York State to Santa Ana! I called CNK at his QTH in Orange. Born back East in 1909, Ed came to So. CA. around Oct., 1920. He got his first license bk in N.Y. State at the tender age of 11 or 12! Ed was an employee of the SAPD, when they first installed radios on their motorcycles. Ed's brother Robert, Bob, was also a ham wid the call, 60P (before the 'W' prefix was added). A colonel in the Signal Corps, Ed became a supervisor in communications fer the State of CA. until his retirement. In the '20s, the Northern Orange County Radio Assoc., which met on 150m to 200m, was the fore-runner of our Club! In 1925, the ARRL Pacific Div. Convention was held right here in Santa Ana at the St. Annes Inn, across frm the Court House on Broadway. The Pacific Division (6th call district) was then composed of CA, Utah, Nevada, & Arizona. Well known wireless operators of the time were: Dr. John Waters, 6EC, dentist; Bob Heffner, 60P; Cecil Yates, W6AVR; Keith Baisal, 6CHS; Ken, 6CHQ; & Ed, CNK. Also Ray Bloemer, 6QG, was active, &, Club records show that Ray was a Club member in 1959. He lived at 1117 W. 3rd St., Santa Ana. Some of these OPs still meet on 7060 KHz. every Tues. morning and 10:00 AM. The first broadcast station in Santa Ana was located in the old Register bldg. on the SW corner of 3rd & Sycamore. Two fellows named Sanford & White were the operators. They also opened a radio parts store in the Grand Central Market in Santa Ana. The first USA station to work Santa Ana was 6CGO, Glen Litton, who lived in Orange. Glen had a '204' tube wid 250W plate dissipation in a Hartley oscillator Xmtr. Ed. note: In the Apr. 1938 'Radio Amateur News', CNK, along wid MQF, LDJ, NSA, & LYM, all handled traffic along wid the SAPD station, KGHX, which was on the air 24 hrs. straight handling an average of 2 messages/minute during the 1938 flood!! de WB6IXN
HAM RANKS INCREASE
The number of FCC-licensed radio amateurs has surpassed 440,000 for the first time in history. FCC figures as of December 27, 1988, show a total of 440,311 licensed amateurs. By license class this looks like:

- Novice: 80,168
- Technician: 101,495
- General: 113,082
- Advanced: 98,681
- Extra: 46,885
- Total: 440,311

OUTGOING QSL BUREAU HAS (ANOTHER) RECORD BROKEN
In these days of record-breaking sun spots, thousands of DX QSL cards go through the ARRL Outgoing QSL Bureau. I waded through the stacks of cards the other day to find Joe Garcia, NJ1Q, busily at work tossing cards into the appropriate country slots. He mentioned to me that the previous record of single shipments by members was shattered recently. The details are as follows: The original record was held by Donald Havlicek, N8DE, with 35 pounds of cards. That record was tied on January 26, 1989 by Stanley Pope, K9MF1 who also submitted 35 pounds of cards. It gets better. On January 31 Robert Cox, K3EST, sent 43 pounds of cards in to the bureau.

The record-shattering shipment arrived February 2 — 54 pounds, sent in by Michael Koss, W9SU/W87PAK! As sunspot cycle 22 continues to bless us with tremendous propagation, I am certain that Michael's record will not stand for long! Anyone have an extra back brace?
