NET NOTES

By Bob Evans, WB6IXN

5/15 15m phone net - W6ZE/AF6C checks in NGO, IXN, & XO. NGO 'spins his wheels without accomplishing much' today. But tomorrow, Kei will give the lawn about 2 hrs. work! Now Kei will 'hit the Frig.' for a SakiUp, er, I mean, a '7-Up'! IXN tells AF6C that 5+ EQ in Arizona was no surprise! And XO & XYL spend Tues. & Thurs. evenings square dancing!..Hm!..I wonder if ESD has tried square dancing yet?! Also, XO's XYL hob-nobs with Ralph Story, riding him around the show grounds at a horse show! And next Wed., the XYL will debut with Larry Mahan on 'Prime Ticket'!

5/5 2m phone net - W6ZE/IXN checks in BPX, AF6C, NG7D, RE, HHC, VDP, ZH & TAM, PFA, BWH, & OPI. Wyatt graduates from the 4-legged cane to a straight cane, while Blanche takes on the weeding!..Hm!..Wonder if Wyatt taught Blanche how to swing a scythe! AF6C & IXN discuss Nostradamus' prediction for dire events in CA. May 8! Tel. Co. has completed work at 'Gopher Hole', says NG7D! And VDP & ZH tell John there's a \$10 fee for DXCC. And we all welcome NG7D back to the younger set as the ARRL computer decreases his age from 65 to 35! House chores, tree trimming, & cans of trash for the G-man don't keep RE & XYL from celebrating Alex' 83rd BD today!..Congrats, Alex! RE airs Newsline, reads new DXCC country authentications, & informs OPs about cellular tel. freqs. ban on new scanners! HHC fails to see how the FCC hopes to accomplish privacy on the cellular tel. bands!..Amen, Ken!..VDP & IXN are in that boat, too! And VDP goes after a Special Events station at Disneyland last weekend. Larry now awaits the QSL card! TAM shouts 'Hi' to the net after she & ZH return home from dining out. AF6C works on a copy of PFA's 'EQ Box' which provides an alarm

when Crystal Seismometer detects an earthquake. Coincidence!..PFA misplaces his box & can't find it! Tom is donated a Hallicrafters SX-101, a surplus BC-224, and an old Packard-Bell table radio. PFA promptly services them and all are in working order! (inc. the Club 2m FM rig, too!) BWH doesn't have much time for hamming! Bob's been busy bringing up a new computer system and rototilling the garden. OPI tells OPs that fellow OP, KA6SAS, needs type O positive blood! 5/6 40m CW net - IXN doesn't find RND or NT on frequency. But John & Ray 'cut it short' hearing no other check-ins!

5/12 15m phone net - W6ZE/AF6C checks in NGO, IXN, & RND. AF6C cleans up the 40m rig and Bob now trusts his meter readings! NGO buys a very expensive flux for welding a trenching tool, and leaves IXN wondering about the meaning of the word 'arikare'?! And RND, back from a long trip around Oregon, Idaho, Salt Lake City, Arizona & Nevada, tells OPs it snows in Salt Lake City on Mother's Day! IXN puts up a new TV antenna. And NGO tries his hand at Kildare breeding!..Kei finds mom & 4 eggs in his field & builds a rock guard around the eggs!

5/12 2m phone net - W6ZE/IXN checks in RE, NG7D, ESD, VDP, RND, ONZ, ZH & TAM, TL, & BWH. RE reaps a bountiful weed harvest from last winter rains. Alex cleans up summer flower beds & gets ready for the weekend Diabetes Bikeathon! NG7D sorts, alphabetizes, etc., the QSL cards in preparation for filing for DXCC, while ZH has 10m DXCC already confirmed with certificate, etc.! John gets his completed 40m receiver back from the OP in LA, but in grueling test run, John NG7D overtakes 2 602 chips!..So!..Back to the drawing board! ESD is too busy for dancing..Bob has been helping friends clean up an old house! IXN will see that ESD meets XO for an intro. to square dancing! VDP works on the truck,

cleans up the shack, & will make time to check out summer antenna projects. RND finds a switch that delays his check-in to net, and John will work on the overhead projector problem at Club meetings. What's this, John?!..A field site 1,000 mi. away?! ONZ holds down the fort while OPI teaches a class on EQ prep. Don gives directions to the Club campout site this weekend. ZH confirms that he & TAM have a key to the EOC storage room to get overhead projector. And Chris gives talk-in freqs. for the Campout this weekend. ZH also has 10m DXCC confirmed with certificate! TL & family are all ready for the campout tent-stile!..This is the 1st campout for TL's family! BWH, with computer work almost complete, finds time for summer other chores & interests, summer seismic in nature! HM!..What's your bet that TL & fam. will be fishing with scrambled eggs at the Campout?!

5/14 40m CW net - W6ZE/RND checks in IXN, NT, & XQR. All OPs hear each other with 599 sigs! RND won't be at the Campout this weekend, having just completed a long journey through 4 states! That means no EQs for Club campers even though they will be located on the San Jacinto fault! And Nancy's CQ Feline is all over her & the key as XQR tries to work the net! And NT tells OPs that ARRL Life Member, Ray Williams, W6UCP, originator of the NARSmen, has become a Silent Key! IXN gets good reports from the fam!..No TVI from the new TV antenna! In the continuing saga of "All My Antennas", Ray tires of running into the Big Dish with the Body, the lawnmower, and the tractor..Next, comes installation of a piece of 4" pipe to mount the 'durn' thing! XQR tells OPs about the 2 Alaskan EQs this AM..And IXN says he heard the 1st one arrive on Crystal seismometer at 5:07 am.

ZH tells OPs abt Club campout near Hemet over last weekend, and the ensuing thunderstorm that drove sum OPs away! RND finds most OPs 'in the mud' tonite! And John picks up a couple of military installations (split freqs., ofcourse) during Armed Forces Day last weekend. ULU has the 'luck of IXN' when it comes to gambling!
