APRIL, 1994

## The Prez Sez

By Chris KJ6ZH

Every now and then the good guys win one. Such is the case with the CLARA radio club going to court to win restraining orders on 3 "potty mouth hams" who have made it their pitiful life's work to harrass the decent operators on the 145.22 machine. CLARA is demonstrating that we don't have to take foul mouth abuse any more and that there are legal civil remedies that can be taken against these individuals even to the extent that at the very least, these perpatrators can be made to pay thousands of dollars in attorney fees and court costs. I say "Well Done!", hit these guys where it hurts (the pocket book) with the modern day version of the dreaded "Wouff Hong."

The April meeting promises to be a good one. We will be having a talk on Packet Radio, Packet Bulletin Board Systems, and Packet Networks. Jane is baking up more goodies for refreshments and one of the raffle prizes will be a clock for the shack which was featured in the January raffle.

Speaking of activities, Jane would like a little feedback from you the members as to what activities you would like to see organized this year. She says that she will be cooking on Field Day and promises to whip up something special.

The DX Convention in Visaila is the same week end as our meeting . I was planning to go but I figured that there many not be enough club officers to run

our meeting so I am planning to go next year. To those of you who are going, I wish a very good time.

Well, I look forward to seeing you at the next meeting and if you think about it, how about putting together an article for the next RF. I'm sure Cindy would appreciate it.

73 and see you on the bands!

Chris - KJ6ZH  
President
